About

24 years ago I made the best decision of my career, joining the Dish team. I've had the opportunity to help create industry leading products and work with the best and brightest folks in our industry. I started as a Senior Software engineer and am now responsible for 500 engineers and technicians. My organization is responsible for...

About

24 years ago I made the best decision of my career, joining the Dish team. I've had the opportunity to help create industry leading products and work with the best and brightest folks in our industry. I started as a Senior Software engineer and am now responsible for 500 engineers and technicians. My organization is responsible for developing and maintaining the software for the Dish award winning set top boxes, the systems that support them, the Dish entertainment website, Dish Anywhere, a superb test organization with engineers in the US, Ukraine and India.
